same subject

1. FDD will inquire into the possibility of cooperation with the Library of Congress central translation pool, as suggested by Mr. Adams in reference letter.

2. FDD requests that action for use of the NIH catalog cards be delayed pending results of FDD liaison with the Library of Congress.

3. It is requested that Mr. Adams be reminded that FDD's interest is not restricted to the Slavic material, but embraces reports in all languages from which NIH may produce translations.

4. It is understood that the copies of translations prepared by NIH for CIA, while of primary interest to FDD, will also be of interest and value to other organizations of CIA.
